Baby,
I miss you so much I tried to
see you before I left camp New Jersey
but sorry I didn't get a chance we
went in a hurry, I wanted to wish you
happy mothers day " so happy mothers
day " make sure you get yourself
something nice from me. Well
now I can tell you were I'm at
I rolled right smack dab in Central
Bagdad I've got some pretty good pictures
and when the mail system gets going
from here I'll send you the film to
develop it, ~~Right now you probably~~
~~can't see it?~~ your

~~the last night was the first time~~
the last night was the first time
I got to sleep on a cot it was the
best thing that happened to me
~~this has been a great thing~~
~~to get to sleep next to you~~
last night we were staying on the grounds
of a blown up palace waiting for
ID to move out so we can move

into the palace there using. Bagdad
was hit hard by the WAD there are so
many dead Iraqi vehicles and blown
out buildings I've never seen anything
like this before our mission has changed
once again instead of patrolling and
shooting ~~to~~ whoever we were told to
give the appearance of a peaceful occupying
force so the cameras will leave and once
they leave we're going to start sweeping
through the city getting rid of the little
pockets of resistance that are all over
the city well I'm going to go for now
I will write again soon I love
you sooooo much kiss my girls for
me and I'll be home soon. oh bear is
a little souvenir to put in the photo
album 😊

Love
ME
Forever
